INTRODUCTION

ABOUT OUR COMPANY

ABOUT US

Doha supply systems, established in 2007, has swiftly become a trusted name in the supply of high-quality seeds to a diverse array of clients. Our clientele includes commercial farmers, nurseries, and government agricultural sectors.

Our unwavering commitment to excellence and dedication to providing top-notch products have positioned us as a preferred choice in the agricultural industry.

OUR VISION

To be the leading supplier of premium seeds and agricultural products in South Africa, fostering growth and innovation in the agricultural sector. We aim to support the agricultural community through sustainable practices and cutting-edge technologies.

OUR MISSION

To deliver the highest quality seeds and agricultural solutions, enhancing productivity and sustainability in farming. We strive to support the agricultural community by offering innovative products and exceptional service.

INTRODUCTION

OUR VALUES

Quality: We ensure our products meet the highest standards, guaranteeing customer satisfaction and superior crop yields.

Reliability: We are committed to timely and efficient service, ensuring our clients receive the products they need, when they need them.

Sustainability: We promote sustainable farming practices, supporting long-term agricultural productivity and environmental health.

PRODUCTS AND SERVICES

Seed Supply

Doha Supply Systems is proud to be the official distributor for Sakata Seeds, Mayford Seeds, and Starke Ayres across the entire Mpumalanga province. In addition, we offer products from Corteva Agriscience and Monsanto, ensuring a comprehensive range of options for our clients. Our extensive product range includes:

Vegetable Seeds: High-yield and disease-resistant varieties suitable for both small-scale and commercial farming operations. We provide seeds for a wide array of vegetables, ensuring robust growth and optimal production.

Field Crop Seeds: Our selection includes seeds tailored for large-scale farming, designed to offer resilience and high productivity under various environmental conditions.

Flower Seeds: Ideal for nurseries and landscaping projects, our flower seeds are chosen for their beauty, resilience, and ease of growth.

PROJECT DESCRIPTION

OUR WORK

2007 - Establishment

Dona Supply Systems was founded with the vision to support the agricultural industry by providing high-quality seeds. Our initial focus was on establishing strong relationships with key stakeholders in the agricultural sector.

2020 - Expansion

Within a year, we expanded our operations to include a wider range of seed varieties. This allowed us to cater to the diverse needs of our growing client base, including commercial farmers and nurseries.

2021 - Client Growth

Our client base grew significantly, including major commercial farmers and various government sectors. This growth was driven by our reputation for quality products and reliable service.

2022 - Technological Advancements

We incorporated advanced technologies in our supply chain, enhancing our quality control and efficiency. These advancements have enabled us to provide even better products and services to our clients.

2023 - Continued Excellence

We have maintained our commitment to quality and sustainability, ensuring our products remain the best choice for farmers. Our ongoing efforts in research and development keep us at the forefront of the industry.

OUR CLIENTS

01.

Dianca Nursery: We supply a variety of seeds tailored to nursery operations, ensuring healthy and vibrant plant growth.

02.

Commercial Farmers: Our seeds are selected for their high yield and resilience, meeting the demanding needs of large-scale agricultural operations.

03.

Government Agricultural Sector: We partner with governmental agricultural programs, providing seeds and support to enhance national agricultural productivity.
